Chairman & CEO

CHAIRMAN'S STATEMENT

Dear Valued Shareholders,

On behalf of the Board of Directors, I am pleased to present to you the Corporate Overview Reports and Financial Statements of Uni Wall APS Holdings Berhad ("UNIWALL") for the financial period ended 30 June 2024. It is also with great honor that I invite you to the 6th Annual General Meeting of Uni Wall APS Holdings Berhad which to be held virtually on 16th December 2024, at 14:30.

With the completion of all previously undertaken projects and a noticeably subdued activity in the group's target market, the financial period ended 30 June 2024 was relatively quiet for the group. However, this lull was short-lived, as a wholly-owned subsidiary of the group was awarded with a RM17.05 million construction contract for a project in Damansara, Kuala Lumpur. Barring any unforeseen circumstances, we anticipate that this project will contribute positively to the group's future earnings.

As Malaysia continues its journey toward modernization and sustainable development, the construction industry is marked by a shift toward sustainability, digitalization, and innovation. The adoption of green building practices, Industrialized Building Systems (IBS), and Building Information Modelling (BIM) is transforming how projects are designed and executed. At the same time, there is a strong focus on affordable housing, smart city development, and infrastructure expansion through public-private partnerships. With such an promising projection of the construction industry, we are excited to explore further room for innovation to better serve our target markets, as well as opportunities to introduce our products and services to more previously untapped segments. At the same time, we will also remain committed to achieving sustainable business growth, delivering meaningful returns to our shareholders, maintaining excellence in our products and services for customers, enhancing the work experience for our employees, and responsibly meeting the expectations of our other stakeholders. Ultimately, our goal is to grow together, not just as a company, but as a unified team.

CHAIRMAN'S STATEMENT (CONT.)

On behalf of the Board of Directors, I would like to express my sincere appreciation to our employees. Your passion and commitment are the foundation of our group's success. I would also like to extend my gratitude to our valued shareholders for your continued confidence and trust. Finally, to my fellow Board members, thank you for your outstanding stewardship.

Thank you.

SLOW HON YONG

EXECUTIVE CHAIRMAN

UNI WALL APS HOLDINGS BERHAD

CEO'S STATEMENT

Dear Our Valued Stakeholders,

The financial period ending June 2024 marked a pivotal turning point for our Group. After navigating a challenging phase daunted by various macroeconomic and microeconomic pressures for so long, we have finally transitioned into a recovery phase with renewed optimism. This positive shift isn't just seen within our Group but resonates across the industry and country, thanks in large part to Malaysia's proactive policies.

Malaysia's Budget 2024 underscores this outlook, with commitments to major infrastructure projects, affordable housing initiatives, and revitalization efforts for abandoned property developments. These strategic investments reflect a collective confidence in sustainable growth for the construction sector as well as the broader economy. However, while the Budget is promising, the limited number of large-scale projects announced still raises some questions about its potential as a comprehensive revival plan. Hence, we see this period as an ideal opportunity to position ourselves for growth. By steadily building momentum we need, we will be better prepared to capitalize on the promising opportunities that lie on the horizon.

FINANCIAL PERFORMANCE

The Group recorded a revenue of RM14.8 million for the current financial year ended ("FYE") 30 June 2024, as compared to RM35.7 million in the previous financial period, representing a decrease of RM20.9 million or 58.5% mainly due to the completion of all previously undertaken projects. However, we can see that the Group recorded a GP of approximately RM8.7 million for the FYE 30 June 2024 as compared to RM5.6 million in the previous financial period, representing an increase of RM3.1 million or 55.4%. The increase in GP was primarily due to the positive contributions from a newly acquired project, along with various improved cost control measures implemented by the Group, such as a stricter input cost forecasting and control resulting in a lower cost of sales. Consequently, we can also see that the Group recorded a PBT of approximately RM4.5 million for the FYE 30 June 2024 as compared to the LBT of RM12.4 million in the previous financial period, representing an increase of PBT of RM16.9 million or 136.3%.

CEO'S STATEMENT (CONT.)

The increase in Profit Before Tax (PBT) was primarily due to the positive contributions from a newly acquired project, along with various restructuring measures implemented by the Group, such as an internal resource optimization resulting in a lower administrative expense.

PROSPECTS

The Group has a series of future plans and strategies in place to further expand the Group's business which are focused in the following areas:

- i) expansion of presence in local building facade industry in Malaysia;
- ii) expansion of factory facilities for higher fabrication capacity; and
- iii) expansion into upstream and downstream business.

A 100% owned subsidiary of the Group had on 4 February 2022 entered into a Memorandum of Collaboration with Sun Solutino Pte Ltd and on 3 June 2022 entered into a Memorandum of Collaboration with Astrom Training Solutions Inc. in relation to the development of certain parts of MVV 2.0. On 23 September 2022, the subsidiary also entered into a conditional sale and purchase agreement with NS Corporation for the proposed acquisition of land for the development of MVV 2.0, which was then terminated on 31 October 2022. For information purposes, there is no material update regarding the development. The Group will continue to liaise with NS Corporation on the land for the Proposed Joint Venture.

A wholly-owned subsidiary of the Group had on 2 April 2024 being awarded with a RM17.05 million construction project which to be completed in the next financial period. More substantial earnings can be anticipated in the next financial period as the project progresses.

Further on these, we are glad to announce that the Company had entered into a Build, Operate and Transfer (BOT) contract with Permodalan Kedah Berhad (PKB) for the development in USM Penang and Sintok Alor Setar, and also there are few potential development is under negotiating and to be finalized in the next financial period.

In addition to the above, the Company is also actively tendering and negotiating for a number of construction and developments projects, with 2 negotiations anticipated to be finalized in the next financial period.

CEO'S STATEMENT (CONT.)

While the financial period ended June 2024 started with a slower pace, momentum quickly picked up following the award of a RM17.05 million construction contract to one of our wholly owned subsidiaries in March 2024. Within just 3 months, this project has already made a positive impact on the group's earnings, and we anticipate even greater contributions as the project progresses. Building on this success, we are also expecting to finalize the negotiations for another large-scale construction project and development initiative in the next financial period. Additionally, with a good start BOT contract with PKB for development of USM & Sintok which expecting to generate a long-term profit growth for the Group and we are exciting to announce more coming project development in the next financial period. Last but not least, we remain committed to pursuing the Malaysia Vision Valley 2.0 development, actively participating in new tenders, and invest in our people. These efforts are geared toward ensuring the group's sustainable business growth and long-term success.

DIVIDENDS

The Board does not recommend any dividend payment in respect of FY2024 as we decided to be financially conservative in view of the possible cash requirements for the expansion of our business and to cushion the impact of economic uncertainties.

ACKNOWLEDGEMENTS

I would like to take this opportunity to express my heartfelt gratitude to our employees. It is with your unwavering commitment and dedication that have provided invaluable support to the group. I also want to extend my sincere appreciation to our shareholders and stakeholders for the trust and confidence you have placed in us. Let us continue our fruitful collaboration and, together, reach even greater heights.

Thank you.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Opinion

We have audited the financial statements of Uni Wall APS Holdings Berhad, which comprise the statements of financial position as at 30 June 2024 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of material accounting policies, as set out on pages 17 to 108.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 30 June 2024, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the *By-Laws (on Professional Ethics, Conduct and Practice)* of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key Audit Matters	How our audit addressed the key audit matters
Impairment of receivables and contract assets (Cont'd) The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.	

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the Directors' Report but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this Directors' Report, we are required to report that fact. We have nothing to report in this regard.

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONT'D)

Responsibilities of the Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of the financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Auditors' Responsibilities for the Audit of the Financial Statements (Cont'd)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also: (Cont'd)

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.

Auditors' Responsibilities for the Audit of the Financial Statements (Cont'd)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also: (Cont'd)

- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

UNI WALL APS HOLDINGS BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS

30 JUNE 2024

1. Corporate Information

The Company is a public limited liability company incorporated and domiciled in Malaysia and is listed on LEAP Market of Bursa Malaysia Securities Berhad.

The principal place of business of the Company is located at 15, Jalan Kesuma 2/3, Bandar Tasik Kesuma, 43700 Semenyih, Selangor Darul Ehsan.

The registered office of the Company is located at B-21-1, Level 21, Tower B, Northpoint Mid Valley City, No. 1, Medan Syed Putra Utara, 59200 Kuala Lumpur.

The principal activity of the Company is investment holding. The principal activities of its subsidiary companies are disclosed in Note 6.

The holding company is Hysiow Holdings Sdn. Bhd., a private limited company incorporated and domiciled in Malaysia.

2. Basis of Preparation

(a) Statement of compliance

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards (“MFRSs”), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The financial statements of the Group and of the Company have been prepared under the historical cost convention, unless otherwise indicated in the material accounting policies below.

2. **Basis of Preparation (Cont'd)**

(a) **Statement of compliance (Cont'd)**

Adoption of new and amended standards

During the financial year, the Group and the Company have adopted the following new and amendments to MFRSs issued by the Malaysian Accounting Standards Board (“MASB”) that are mandatory for current financial year:

MFRS 17	Insurance Contracts
Amendments to MFRS 17	Insurance Contracts
Amendments to MFRS 17	Initial Application of MFRS 17 and MFRS 9 - Comparative Information
Amendments to MFRS 101	Disclosure of Accounting Policies
Amendments to MFRS 108	Definition of Accounting Estimates
Amendments to MFRS 112	Deferred Tax related to Assets and Liabilities arising from a Single Transaction
Amendments to MFRS 112	International Tax Reform - Pillar Two Model Rules

The adoption of the above new and amendments to MFRSs did not have any significant impact on the financial statements of the Group and of the Company.

MFRS 101: Disclosure of Accounting Policies (Amendments to MFRS 101)

The Group and the Company adopted Amendments to MFRS 101, *Presentation of Financial Statements - Disclosure of Accounting Policies* for the first time in 2023. Although the amendments did not result in any changes to the accounting policies themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of ‘material’, rather than ‘significant’, accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policy information that users need to understand other information in the financial statements.

Management reviewed the accounting policies and made updates to the information disclosed in Material Accounting Policies (2023: Significant Accounting Policies) in certain instances in line with the amendments.

2. Basis of Preparation (Cont'd)

(a) Statement of compliance (Cont'd)

Adoption of new and amended standards (Cont'd)

MFRS 112: Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to MFRS 112)

The Group and the Company have adopted Amendments to MFRS 112, *Income Taxes - Deferred Tax related to Assets and Liabilities arising from a Single Transaction* from 1 July 2023. The amendments narrow the scope of the initial recognition exemption to exclude transactions that give rise to equal and offsetting temporary differences - e.g. leases and decommissioning liabilities. For leases and decommissioning liabilities, an entity is required to recognise the associated deferred tax assets and liabilities from the beginning of the earliest comparative period presented, with any cumulative effect recognised as an adjustment to retained earnings or other components of equity at that date. For all other transactions, an entity applies the amendments to transactions that occur after the beginning of the earliest period presented. The Group and the Company previously accounted for deferred tax on leases and decommissioning liabilities applying the 'integrally linked' approach, resulting in a similar outcome to the amendments, except that the deferred tax asset or liability was recognised on a net basis. Following the amendments, the Group and the Company have recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. However, there was no impact on the statement of financial position because the balances qualify for offset under paragraph 74 of MFRS 112.

2. Basis of Preparation (Cont'd)

(a) Statement of compliance (Cont'd)

Standards issued but not yet effective

The Group and the Company have not applied the following new and amendments to MFRSs issued by MASB but are not yet effective for the Group and the Company:

		<u>Effective dates for financial periods beginning on or after</u>
Amendments to MFRS 16	Lease Liability in a Sale and Leaseback	1 January 2024
Amendments to MFRS 101	Classification of Liabilities as Current or Non-current	1 January 2024
Amendments to MFRS 101	Non-current Liabilities with Covenants	1 January 2024
Amendments to MFRS 107 and MFRS 7	Supplier Finance Arrangements	1 January 2024
Amendments to MFRS 121	Lack of Exchangeability	1 January 2025
Amendments to MFRS 7 and MFRS 9	Amendments to the Classification and Measurement of Financial Instruments	1 January 2026
MFRS 18	Presentation and Disclosure in Financial Statements	1 January 2027
MFRS 19	Subsidiaries without Public Accountability: Disclosures	1 January 2027
Amendments to MFRS 10 and MFRS 128	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred until further notice

The Group and the Company intend to adopt the new and amendments to MFRSs, if applicable, when they become effective.

The initial application of the new and amendments are not expected to have any significant impacts on the financial statements of the Group and of the Company.

(b) Functional and presentation currency

The financial statements are presented in Ringgit Malaysia ("RM"), which is the Company's functional currency. All financial information is presented in RM and has been rounded to the nearest RM except when otherwise stated.

2. **Basis of Preparation (Cont'd)**

(c) **Significant accounting judgements, estimates and assumptions**

The preparation of the Group's and the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the reporting date. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Judgements

There are no significant areas of critical judgement in applying accounting policies that have significant effect on the amounts recognised in the financial statements.

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are set out below:

Useful lives/amortisation of property, plant and equipment and right-of-use ("ROU") assets

The Group regularly reviews the estimated useful lives of property, plant and equipment and ROU assets based on factors such as business plan and strategies, expected level of usage and future technological developments. Future results of operations could be materially affected by changes in these estimates brought about by changes in the factors mentioned above. A reduction in the estimated useful lives of property, plant and equipment and ROU assets would increase the recorded depreciation and decrease the value of property, plant and equipment and ROU assets. The carrying amount at the reporting date for property, plant and equipment and ROU assets are disclosed in Notes 4 and 5 respectively.

Revenue from construction contracts

Construction revenue and costs are recognised over the period of the contract in the profit or loss by reference to the progress towards complete satisfaction of that performance obligation.

2. **Basis of Preparation (Cont'd)**

(c) **Significant accounting judgements, estimates and assumptions (Cont'd)**

Key sources of estimation uncertainty (Cont'd)

Revenue from construction contracts (Cont'd)

The progress towards complete satisfaction of performance obligation is measured based on the physical proportion of contract work-to-date certified by professional consultants. Significant judgement is required in determining the progress based on the certified work-to-date corroborated by the level of completion of the construction based on actual costs incurred to-date over the estimated total construction costs. The total estimated construction costs are based on approved budgets, which require assessments and judgments to be made on changes in, for example, work scope, changes in costs and costs to completion. In making the judgement, the Group evaluates based on past experience, the work of specialists and a continuous monitoring mechanism.

The details of construction contracts are disclosed in Note 23.

Provision for expected credit loss of financial assets at amortised cost

The Group and the Company review the recoverability of its receivables and contract assets at each reporting date to assess whether an impairment loss should be recognised. The impairment provisions for receivables and contract assets are based on assumptions about risk of default and expected loss rates. The Group and the Company use a provision matrix to calculate expected credit loss for receivables and contract assets. The provision rates are based on number of days past due.

The provision matrix is initially based on the Group's and the Company's historical observed default rates. The Group and the Company will calibrate the matrix to adjust the historical credit loss experience. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and expected credit loss is a significant estimate. Information about the expected credit loss is disclosed in Note 7, 8 and 10.

2. **Basis of Preparation (Cont'd)**

(c) **Significant accounting judgements, estimates and assumptions (Cont'd)**

Key sources of estimation uncertainty (Cont'd)

Discount rate used in leases

Where the interest rate implicit in the lease cannot be readily determined, the Group uses the incremental borrowing rate to measure the lease liabilities. The incremental borrowing rate is the interest rate that the Group would have to pay to borrow over a similar term, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. Therefore, the incremental borrowing rate requires estimation, particularly when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the incremental borrowing rate using observable inputs when available and is required to make certain entity-specific estimates.

Income taxes

Judgement is involved in determining the provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business.

The Group recognises liabilities for expected tax issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such differences will impact the income tax and deferred tax provisions in the period in which such determination is made. As at 30 June 2024, the Group has tax payable of RM6,993,768 (2023: RM5,612,976) and tax recoverable of RM2,256 (2023: RM2,250). The Company has tax recoverable of RM2,250 (2023: RM2,250).

3. **Material Accounting Policies**

The accounting policies set out below have been applied consistently to all periods presented in these financial statements, except as explained above, which addresses changes in material accounting policies.

(a) **Basis of consolidation**

(i) **Subsidiary companies**

Subsidiary companies are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiary companies are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

3. Material Accounting Policies (Cont'd)

(a) Basis of consolidation (Cont'd)

(i) Subsidiary companies (Cont'd)

Subsidiary companies are consolidated using merger method of accounting as the business combination of these subsidiary companies involved an entity under common control except for business combination with Uni Wall Properties Sdn. Bhd. and NS Aero City Sdn. Bhd., which was accounted for under acquisition method of accounting.

Under the merger method of accounting, the results of subsidiary companies are presented as if the merger had been affected throughout the current and previous years. The assets and liabilities combined are accounted for based on the carrying amounts from the perspective of the common control shareholder at the date of transfer. On consolidation, the cost of the merger is cancelled with the values of the shares received. Any resulting credit differences is classified as equity and regarded as a non-distributable reserve.

Any resulting debit difference is adjusted against any suitable reserve. Any capital redemption reserve and any other reserves which are attributable to share capital of the merged entities, to the extent that they have not been capitalised by a debit difference, are reclassified and presented as movement in other capital reserves.

Under the acquisition method to account for business combinations. The consideration transferred for the acquisition of a subsidiary company is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Identifiable assets acquired and liabilities and contingent liabilities assumed in business combination are measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

Acquisition-related costs are expensed in profit or loss as incurred.

3. Material Accounting Policies (Cont'd)

(a) Basis of consolidation (Cont'd)

(i) Subsidiary companies (Cont'd)

If the business combination is achieved in stages, the acquirer's previously held equity interest in the acquiree is re-measured at its acquisition-date fair value and the resulting gain or loss is recognised in profit or loss.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period (which cannot exceed one year from the acquisition date), or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date, if known, would have affected the amounts recognised at that date.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of MFRS 9 *Financial Instruments* is measured at fair value with the changes in fair value recognised in profit or loss. Contingent consideration that is classified as equity is not re-measured, and its subsequent settlement is accounted for within equity.

Inter-company transactions, balances and unrealised gains or losses on transactions between Group companies are eliminated. Unrealised losses are eliminated only if there is no indication of impairment. Where necessary, accounting policies of subsidiary companies have been changed to ensure consistency with the policies adopted by the Group.

In the Company's separate financial statements, investments in subsidiary companies are stated at cost less accumulated impairment losses. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts are recognised in profit or loss. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. See accounting policy Note 3(h)(i) on impairment of non-financial assets.

3. **Material Accounting Policies (Cont'd)**

(a) **Basis of consolidation (Cont'd)**

(ii) **Changes in ownership interests in subsidiary companies without change of control**

Transactions with non-controlling interests that do not result in loss of control are accounted for as equity transactions – that is, as transactions with the owners in their capacity as owners. The difference between fair value of any consideration paid and the relevant share acquired of the carrying value of net assets of the subsidiary company is recorded in equity. Gains or losses on disposals to non-controlling interests are also recorded in equity.

(iii) **Disposal of subsidiary companies**

If the Group loses control of a subsidiary company, the assets and liabilities of the subsidiary company, including any goodwill, and non-controlling interests are derecognised at their carrying value on the date that control is lost. Any remaining investment in the entity is recognised at fair value. The difference between the fair value of consideration received and the amounts derecognised and the remaining fair value of the investment is recognised as a gain or loss on disposal in profit or loss. Any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities.

(b) **Property, plant and equipment**

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The policy of recognition and measurement of impairment losses is in accordance with Note 3(h)(i) on impairment of non-financial assets.

(i) **Recognition and measurement**

Cost includes expenditures that are directly attributable to the acquisition of the assets and any other costs directly attributable to bringing the asset to working condition for its intended use, cost of replacing component parts of the assets, and the present value of the expected cost for the decommissioning of the assets after their use. The cost of self-constructed assets also includes the cost of materials and direct labour. For qualifying assets, borrowing costs are capitalised in accordance with the accounting policy on borrowing costs.

All other repair and maintenance costs are recognised in profit or loss as incurred.

3. Material Accounting Policies (Cont'd)

(b) Property, plant and equipment (Cont'd)

(i) Recognition and measurement (Cont'd)

The cost of property, plant and equipment recognised as a result of a business combination is based on fair value at acquisition date. The fair value of property is the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion. The fair value of other items of plant and equipment is based on the quoted market prices for similar items.

When significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Property, plant and equipment are derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amount of the assets and are recognised in profit or loss.

(ii) Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of the day-to-day servicing of property, plant and equipment are recognised in the profit or loss as incurred.

3. **Material Accounting Policies (Cont'd)**

(b) **Property, plant and equipment (Cont'd)**

(iii) **Depreciation**

Depreciation is recognised in the profit or loss on straight line basis to write off the cost or valuation of each asset to its residual value over its estimated useful life. Freehold land is not depreciated. Property, plant and equipment under construction are not depreciated until the assets are ready for its intended use.

Property, plant and equipment are depreciated based on the estimated useful lives of the assets as follows:

Freehold buildings	2%
Forklift	10%
Furniture and fittings	20%
Motor vehicles	20%
Office equipment	20%
Plant and machinery	20%
Renovation	20%

The residual values, useful lives and depreciation method are reviewed at each reporting period end to ensure that the amount, method and period of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the property, plant and equipment.

(c) **Leases**

As lessee

The Group recognises a ROU asset and a lease liability at the lease commencement date. The ROU asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or site on which it is located, less any lease incentives received.

3. **Material Accounting Policies (Cont'd)**

(c) **Leases (Cont'd)**

As lessee (Cont'd)

The ROU assets are subsequently measured at cost less any accumulated depreciation, accumulated impairment loss and, if applicable, adjusted for any remeasurement of lease liabilities. The policy of recognition and measurement of impairment losses is in accordance with Note 3(h)(i) on impairment of non-financial assets.

The ROU assets under cost model are depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the ROU asset or the end of the lease term. The estimated useful lives of the ROU assets are determined on the same basis as those of property, plant and equipment as follows:

Motor vehicles	20%
Plant and machinery	20%

The ROU assets are subject to impairment.

The lease liability is initially measured at the present value of future lease payments at the commencement date, discounted using the respective Group entities' incremental borrowing rates. Lease payments included in the measurement of the lease liability include fixed payments, any variable lease payments, amount expected to be payable under a residual value guarantee, and exercise price under an extension option that the Group is reasonably certain to exercise.

Variable lease payments that do not depend on an index or a rate and are dependent on a future activity are recognised as expenses in profit or loss in the period in which the event or condition that triggers the payment occurs.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in rate, or if the Group changes its assessment of whether it will exercise an extension or termination option.

Lease payments associated with short term leases and leases of low value assets are recognised on a straight-line basis as an expense in profit or loss. Short term leases are leases with a lease term of 12 months or less and do not contain a purchase option. Low value assets are those assets valued at less than RM20,000 each when purchased new.

3. **Material Accounting Policies (Cont'd)**

(d) **Financial assets**

Financial assets are recognised in the statements of financial position when, and only when the Group and the Company become a party to the contractual provisions of the financial instrument.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit and loss (“FVTPL”), directly attributable transaction costs.

The Group and the Company determined the classification of their financial assets at initial recognition, and the categories include trade and other receivables, amount due from subsidiary company, fixed deposit with licensed banks, and cash and bank balances.

The Group and the Company measure financial assets at amortised cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows, and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest (“EIR”) method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired.

The Company has not designated any financial assets as fair value through other comprehensive income (“FVOCI”) and FVTPL.

Regular way purchases or sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the marketplace concerned. All regular way purchases and sales of financial assets are recognised on the trade date i.e., the date that the Group and the Company commit to purchase or sell the asset.

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received for financial instrument is recognised in profit or loss.

3. **Material Accounting Policies (Cont'd)**

(e) **Financial liabilities**

Financial liabilities are recognised when, and only when, the Group and the Company become a party to the contractual provisions of the financial instruments. All financial liabilities are recognised initially at fair value plus, in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs.

After initial recognition, financial liabilities that are not carried at fair value through profit or loss are subsequently measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

(f) **Financial guarantee contracts**

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs when the guaranteed debtor fails to make payment when due.

Financial guarantee contracts are recognised initially as financial liabilities at fair value, net of transaction costs. Subsequently, the liability is measured at the higher of:

- The amount of the loss allowance; and
- The amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance with the principle of MFRS 15 *Revenue from contracts with Customers*.

3. **Material Accounting Policies (Cont'd)**

(g) **Contract assets and contract liabilities**

Contract asset is the right to consideration for goods or services transferred to the customers. The Group's contract asset is the excess of revenue recognised over the billings to-date and deposits or advances received from customers.

Where there is objective evidence of impairment, the amount of impairment losses is determined by comparing the contract asset's carrying amount and the present value of estimated future cash flows to be generated by the contract asset.

Contract asset is reclassified to trade receivables at the point at which invoices have been billed to customers.

Contract liability is the obligation to transfer goods or services to customers for which the Group has received the consideration or has billed the customers. The Group's contract liability is the excess of the billings to-date over the revenue recognised. Contract liabilities are recognised as revenue when the Group performs its obligation under the contracts.

(h) **Impairment of assets**

(i) **Non-financial assets**

The carrying amounts of non-financial assets (except for contract assets) are reviewed at the end of each reporting period to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash-generating units.

The recoverable amount of an asset or cash-generating unit is the greater of its value-in-use and its fair value less costs of disposal. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or cash-generating unit.

3. Material Accounting Policies (Cont'd)

(h) Impairment of assets (Cont'd)

(i) Non-financial assets (Cont'd)

An impairment loss is recognised if the carrying amount of an asset or cash-generating unit exceeds its estimated recoverable amount. Impairment loss is recognised in profit or loss. Impairment losses recognised in respect of cash generating units are allocated to reduce the carrying amounts of the other assets in the cash-generating unit (group of cash-generating units) on a pro rata basis.

Impairment losses recognised in prior periods are assessed at the end of each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation or amortisation, had no impairment loss been recognised for asset in prior years. Such reversal is recognised in the profit or loss.

(ii) Financial assets

The Group and the Company measure loss allowances at an amount equal to lifetime expected credit loss, except for debt securities that are determined to have low credit risk at the reporting date, cash and bank balance and other debt securities for which credit risk has not increased significantly since initial recognition, which are measured at 12-months expected credit loss. Loss allowances for trade receivables, contract assets and inter-company balances are always measured at an amount equal to lifetime expected credit loss.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Group and the Company consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's and the Company's historical experience and informed credit assessment and including forward-looking information, where available.

3. Material Accounting Policies (Cont'd)

(h) Impairment of assets (Cont'd)

(ii) Financial assets (Cont'd)

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of the asset, while 12-months expected credit losses are the portion of expected credit losses that result from default events that are possible within the 12 months after the reporting date. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group and the Company are exposed to credit risk.

The Group and the Company estimate the expected credit losses on trade receivables, contract assets and inter-company balances using a provision matrix with reference to historical credit loss experience.

Loss rates are based on actual credit loss experience over the past three years. At every reporting date, the historical observed default rates are updated and changes in forward-looking estimates are analysed.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

At each reporting date, the Group and the Company assess whether financial assets carried at amortised cost are credit-impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The gross carrying amount of a financial asset is written off (either partially or full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group and the Company determine that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's and the Company's procedures for recovery amounts due.

3. **Material Accounting Policies (Cont'd)**

(i) **Construction contracts**

Construction contracts are contract specifically negotiated for the construction of an asset or a combination of assets that are closely interrelated or interdependent in terms of their design, technology and functions or their ultimate purpose or use.

Cost incurred to fulfil the contracts, comprising cost of direct materials, direct labour, other direct costs, attributable overheads and payments to subcontractors are recognised as an asset and amortised over to profit or loss systematically to reflect the transfer of the contracted service to the customer.

The Group uses the efforts or inputs to the satisfaction of the performance obligations to determine the appropriate amount to recognise in a given period. This is measured by reference to the contract costs incurred up to the end of the reporting period as a percentage of total estimated costs for each contract. Costs incurred in the financial period in connection with future activity on a contract are excluded from contract costs in determining the stage of completion. They are presented as inventories, prepayments or other assets, depending on their nature. When the carrying amount of the asset exceeds the remaining amount of consideration that the Group expects to receive in exchange of the contracted asset, an impairment loss is recognised in profit or loss.

The Group presents as an asset the gross amount due from customers for contract work in progress for which costs incurred plus recognised profits (less recognised losses) exceed contract liabilities. Contract liabilities not yet paid by customers and retention monies are included within receivables and contract assets. The Group presents as a liability the gross amount due to customers for contract work for all contracts in progress for which contract liabilities exceed costs incurred plus recognised profits (less recognised losses).

(j) **Share capital**

An equity instrument is any contract that evidences a residual interest in the assets of the Group and the Company after deducting all of its liabilities. Ordinary shares are equity instruments. Ordinary shares are recorded at the proceeds received, net of directly attributable incremental transaction costs. Ordinary shares are classified as equity.

Dividend distribution to the Company's shareholders is recognised as a liability in the period they are approved by the Board of Directors except for the final dividend which is subject to approval by the Company's shareholders.

3. **Material Accounting Policies (Cont'd)**

(k) **Provisions**

Provisions are recognised when there is a present legal or constructive obligation as a result of a past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and the amount of the obligation can be estimated reliably.

Provisions are reviewed at each end of the reporting period and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Any reimbursement that the Group can be virtually certain to collect from a third party with respect to the obligation is recognised as a separate asset. However, this asset may not exceed the amount of the related provision. The expense relating to any provision is presented in the statements of profit or loss and other comprehensive income net of any reimbursement.

(l) **Employee benefits**

(i) **Short term employee benefits**

Wages, salaries, bonuses, and social security contributions are recognised as an expense in the reporting period in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensation absences. Short term non-accumulating compensated absences such as sick and medical leave are recognised when the absences occur.

The expected cost of accumulating compensated absences is measured as additional amount expected to be paid as a result of the unused entitlement that has accumulated at the end of the reporting period.

(ii) **Defined contribution plans**

As required by law, companies in Malaysia contribute to the state pension scheme, the Employees Provident Fund (“EPF”). Such contributions are recognised as an expense in the profit and loss as incurred. Once the contributions have been paid, the Group has no further payment obligations.

3. **Material Accounting Policies (Cont'd)**

(m) **Revenue recognition**

Revenue from contracts with customers

Revenue is recognised when the Group satisfied a performance obligation (“PO”) by transferring a promised good or services to the customer, which is when the customer obtains control of the good or service. A PO may be satisfied at a point in time or over time. The amount of revenue recognised is the amount allocated to the satisfied PO.

(i) **Construction contracts**

Construction revenue and costs are recognised over the period of the contract in the profit or loss by reference to the progress towards complete satisfaction of that performance obligation.

The progress towards complete satisfaction of performance obligation is measured based on the physical proportion of contract work-to-date certified by professional consultants. Significant judgement is required in determining the progress based on the certified work-to-date corroborated by the level of completion of the construction based on actual costs incurred to-date over the estimated total construction costs. The total estimated construction costs are based on approved budgets, which require assessments and judgments to be made on changes in, for example, work scope, changes in costs and costs to completion. In making the judgement, the Group evaluates based on past experience, the work of specialists and a continuous monitoring mechanism.

(ii) **Supply of labours**

Revenue from supply of labours is recognised in the reporting period in which the services are rendered, which simultaneously received and consumes the benefits provided by the Group, and the Group has a present right to payment for the services.

Revenue from other source

Interest income

Interest income is recognised on accruals basis using the effective interest method.

3. **Material Accounting Policies (Cont'd)**

(n) **Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of a qualifying asset are capitalised as part of the cost of the assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred. Borrowing costs consist of interest and other costs that the Group and the Company incurred in connection with the borrowing of funds.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceases when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

(o) **Income taxes**

Tax expense in profit or loss comprises current and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the financial year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous financial years.

Deferred tax is recognised using the liability method for all temporary differences between the carrying amounts of assets and liabilities in the statements of financial position and their tax bases. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period.

3. **Material Accounting Policies (Cont'd)**

(o) **Income taxes (Cont'd)**

The measurement of deferred tax is based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, at the end of the reporting period. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at the end of each reporting period and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(p) **Segment reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-makers are responsible for allocating resources and assessing performance of the operating segments and make overall strategic decisions. The Group's operating segments are organised and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets.

(q) **Contingencies**

Where it is not probable that an inflow or an outflow of economic benefits will be required, or the amount cannot be estimated reliably, the asset or the obligation is disclosed as a contingent asset or contingent liability, unless the probability of inflow or outflow of economic benefits is remote. Possible obligations, whose existence will only be confirmed by the occurrence or non-occurrence of one or more future events, are also disclosed as contingent assets or contingent liabilities unless the probability of inflow or outflow of economic benefits is remote.

3. **Material Accounting Policies (Cont'd)**

(r) **Fair value measurement**

Fair value of an asset or a liability is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer of the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

For non-financial asset, the fair value measurement takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

When measuring the fair value of an asset or a liability, the Group and the Company use observable market data as far as possible. Fair value is categorised into different levels in a fair value hierarchy based on the input used in the valuation technique as follows:

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date.
- Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: unobservable inputs for the asset or liability.

The Group and the Company recognise transfers between levels of the fair value hierarchy as of the date of the event or change in circumstances that caused the transfers.

(a) Impairment of investment in subsidiary companies

The Company conducted a review of the recoverable amounts of its investment in subsidiary companies of which its carrying amount of investments exceeded the net assets of the respective subsidiary companies at the reporting date. As a result, an impairment loss amounting to RM50,000 (2023: RM204,096) was recognised during the financial year.

(b) Increase of shareholding in subsidiary companies

During the financial year:

On 17 August 2023, UAPSSB had acquired 50,000 ordinary shares in NSACSB for a total cash consideration of RM50,000, increasing its ownership from 80% to 100%.

6. Investment in Subsidiary Companies (Cont'd)**(b) Increase of shareholding in subsidiary companies (Cont'd)**In the previous financial period:

- (i) On 8 June 2023, UAPSSB had acquired 3 ordinary shares in UMSB for a total cash consideration of RM3, increasing its ownership from 70% to 100%.
- (ii) On 8 August 2022, NSACSB issued additional 240,000 ordinary shares. The Company subscribed 192,000 ordinary shares in NSACSB for a total cash consideration of RM192,000.

On 24 August 2022, the Company disposed 25,000 ordinary shares in NSACSB for a total cash consideration of RM25,000, decreasing its ownership from 80% to 70%.

On 17 February 2023, the Company acquired 25,000 ordinary shares in NSACSB for a total cash consideration of RM25,000, increasing its ownership from 70% to 80%.

(c) Disposal of a subsidiary companyDuring the financial year:

On 30 June 2023, the Company had disposed its entire equity interest, 1,321 ordinary shares in UCPLT to a Director for a cash consideration of RM3. Upon the completion of the disposal, UCPLT has ceased to be the subsidiary of the Company.

31. Related Party Transactions**(a) Identifying related parties**

For the purposes of these financial statements, parties are considered to be related to the Group if the Group or the Company has the ability, directly or indirectly, to control or joint control the party or exercise significant influence over the party in making financial and operating decisions, or vice versa, or where the Group or the Company and the party are subject to common control. Related parties may be individuals or other entities.

Related parties also include key management personnel defined as those persons having authority and responsibility for planning, directing and controlling the activities of the Group either directly or indirectly. The key management personnel comprise the Directors and management personnel of the Group, having authority and responsibility for planning, directing and controlling the activities of the Group entities directly or indirectly.

31. **Related Party Transactions (Cont'd)**

(b) **Significant related party transactions**

Related party transactions have been entered into in the normal course of business under negotiated terms. In addition to the related party balances disclosed elsewhere in the financial statements, the significant related party transactions of the Group are as follows:

	01.07.2023 to 30.06.2024 RM	01.01.2022 to 30.06.2023 RM
Group		
Transactions between subsidiary company and its non-controlling interests

Transactions with a Director:		
- Supply of labours	-	1,661,049

(c) **Compensation of key management personnel**

The Company defines key management personnel as its Directors whose remuneration are disclosed in Note 25 and 28.

32. **Segmental Information**

For management purposes, the Group is organised into business units based on their products and services provided, as follows:

Construction	Provision of building façade services and carry on the business as contractors and sub-contractors
Supply of labours	Construction labours services
Others	Investment holding or dormant

Management monitors the operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on profit or loss and is measured consistently with profit or loss in the consolidated financial statements.

Transactions between segments are carried out on agreed terms between both parties. The effects of such inter-segment transactions are eliminated on consolidation. The measurement basis and classification are consistent with those adopted in the previous financial year.

Major Customer

Major customers' information are revenues from transactions with a single external customer amount to ten percent or more of the Group revenue. A group of entities known to a reporting entity to be under common control shall be considered a single customer, and entities known to the reporting entity to be under the control of that government shall be considered a single customer.

Total revenue from 1 (2023:2) major customers which individually contributed more than 10% of the Group revenue from the construction segment which amounted to RM11,739,566 (2023: RM23,799,963).

Geographic information

Geographical segment information has not been prepared as the Group's operations are all confined to Malaysia.

33. **Financial Instruments**(a) **Classification of financial instruments**

Financial assets and financial liabilities are measured on an ongoing basis either at fair value or at amortised cost. The principal accounting policies in Note 3 describe how the classes of financial instruments are measured, and how income and expense, including fair value gains and losses, are recognised.

The following table analyses the financial assets and liabilities in the statements of financial position by the class of financial instruments to which they are assigned, and therefore by the measurement basis:

33. **Financial Instruments (Cont'd)**

(b) **Financial risk management objectives and policies**

The Group's financial risk management policy is to ensure that adequate financial resources are available for the development of the Group's operations whilst managing its credit, liquidity, foreign currency, interest rate and market price risks. The Group operates within clearly defined guidelines that are approved by the Board and the Group's policy is not to engage in speculative transactions.

The following sections provide details regarding the Group's exposure to the abovementioned financial risks and the objectives, policies and processes for the management of these risks.

(i) **Credit risk**

Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Group's exposure to credit risk arises principally from its receivables from customers and deposits with licensed banks. The Company's exposure to credit risk arises principally from advances to subsidiary companies and financial guarantees given to banks for credit facilities granted to subsidiary companies.

The Group has adopted a policy of only dealing with creditworthy counterparties. Management has a credit policy in place to control credit risk by dealing with creditworthy counterparties and deposit with licensed banks with good credit rating. The exposure to credit risk is monitored on an ongoing basis and action will be taken for long outstanding debts.

The Company provides advances to its subsidiary companies. It also provides unsecured financial guarantees to bank for banking facilities granted to a subsidiary company. The Company monitors on an ongoing basis the results of the subsidiary companies and repayments made by the subsidiary companies.

At each reporting date, the Group and the Company assess whether any of the receivables are credit impaired.

The gross carrying amounts of credit impaired receivables are written off (either partial or full) when there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. Nevertheless, receivables that are written off could still be subject to enforcement activities.

33. **Financial Instruments (Cont'd)**

(b) **Financial risk management objectives and policies (Cont'd)**

(i) **Credit risk (Cont'd)**

The carrying amounts of the financial assets recorded on the statements of financial position at the end of the financial year represents the Group's maximum exposure to credit risk except for financial guarantee provided to licensed banks for banking facilities granted to certain subsidiary companies.

The Group's maximum exposure in this respect is RM922,680 (2023: RM100,000 while the Company's maximum exposure in this respect is RM6,536,386 (2023: RM9,154,993) representing the outstanding banking facilities of the subsidiary company as at the end of the reporting period. There was no indication that the subsidiary company would default on repayment as at the end of the reporting period.

Credit risk concentration

As at the end of the reporting period, the Group has 1 debtor (2023: 2 debtors) that accounted for approximately 77% (2023: 86%) of all the trade receivables outstanding.

(ii) **Liquidity risk**

Liquidity risk is the risk that the Group and the Company will not be able to meet its financial obligations as they fall due. The Group's and the Company's exposure to liquidity risk arises principally from its various payables, loans and borrowings.

The Group and the Company maintain a level of cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.

It is not expected that the cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts.

(iii) **Market risk**

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and other prices that will affect the Group's financial position or cash flows.

Interest rate risk

The Group's fixed rate deposits placed with licensed banks and fixed rate borrowings are exposed to a risk of change in their fair value due to changes in interest rates. The Group's variable rate borrowings are exposed to a risk of change in cash flows due to changes in interest rates.

33. **Financial Instruments (Cont'd)**(b) **Financial risk management objectives and policies (Cont'd)**(iii) **Market risk (Cont'd)****Interest rate risk (Cont'd)**

The Group manages the interest rate risk of its deposits with licensed financial institutions by placing them at the most competitive interest rates obtainable, which yield better returns than cash at bank and maintaining a prudent mix of short and long-term deposits.

The Group manages its interest rate risk exposure from interest bearing borrowings by obtaining financing with the most favourable interest rates in the market. The Group constantly monitors its interest rate risk by reviewing its debts portfolio to ensure favourable rates are obtained. The Group does not utilise interest swap contracts or other derivative instruments for trading or speculative purposes.

Exposure to interest rate risk

The interest rate profile of the Group's significant interest-bearing financial instruments, based on carrying amounts as at the end of the reporting period are as follows:

	Group	
	2024	2023
	RM	RM
Fixed rate instruments		
Financial asset:		
Fixed deposits with licensed banks	3,322,556	7,807,416
Financial liability:

33. **Financial Instruments (Cont'd)**(b) **Financial risk management objectives and policies (Cont'd)**(iii) **Market risk (Cont'd)****Interest rate risk (Cont'd)***Exposure to interest rate risk (Cont'd)*

Multi currency trade loan	3,342,000	-
	13,488,474	19,114,552

*Interest rate risk sensitivity analysis*Fair value sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rate financial assets at fair value through profit or loss. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.

Cash flow sensitivity analysis for floating rate instruments

A change of 0.25% interest rate at the end of the reporting period would have increased/(decreased) the Group's profit before taxation by RM33,721 (2023: RM47,786), arising mainly as a result of lower/higher interest expenses on floating rate loans and borrowings. This analysis assumes that all other variables remain constant. The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

33. Financial Instruments (Cont'd)

(c) Fair value of financial instruments

The Group's and the Company's carrying amounts of short term receivables and payables, cash and cash equivalents and short term borrowings approximate their fair value due to the relatively short-term nature of these financial instruments and insignificant impact of discounting.

The carrying amount of long-term floating rate loans approximate their fair value as the loans will be re-priced to market interest rate on or near reporting date.

The fair value of lease liability is estimated based on future contractual cash flows discounted at incremental borrowing rate for similar type of borrowing at the end of the reporting period.

34. Capital Management

The Group's and the Company's objectives when managing capital are to safeguard the Group's and the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group and the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders or issue new shares.

34. Capital Management (Cont'd)

The Group and the Company monitor capital using a gearing ratio. The Group's and the Company's policy is to maintain a prudent level of gearing ratio that complies with debt covenants and regulatory requirements. The gearing ratio at the end of the reporting period are as follows:

	Group		Company	
	2024	2023	2024	2023
	RM	RM	RM	RM
	(Restated)			
Total loans and borrowings	13,855,322	19,855,973	-	-

Total equity	<u>20,590,064</u>	<u>18,065,830</u>	<u>11,263,871</u>	<u>11,408,436</u>
Gearing ratio	<u>0.47</u>	<u>0.63</u>	<u>*</u>	<u>*</u>

* The gearing ratio analysis is not applicable as the Company has no loans and borrowings.

There were no changes in the Group's and the Company's approach to capital management during the financial year.

The Group and the Company are not subject to any external imposed capital requirements.

35. **Material Litigation**

(i) **Shah Alam High Court Suit No. BA-22NCVC-96-03/2020**

Ajiya Safety Glass Sdn. Bhd. (“Ajiya”) supplied various glasses to UAPSSB for 3 projects, which is Project Hill 10 I City, Project KL Metropolis and Project Toyoma (“the Projects”). In the Suit, Ajiya claims a sum of RM1,711,311 from UAPSSB, allegedly being the outstanding payment due and owing by UAPSSB for glasses already sold and delivered to UAPSSB for the Projects. UAPSSB disputed the claim as Ajiya has sold sub-standard glasses to UAPSSB, which are not fit for purpose and not in accordance with the glasses specification as ordered by UAPSSB in the quotations. In fact, UAPSSB has a counter claim against Ajiya for a sum of approximately RM1,300,000 and also for further damages to be assessed as the Projects are still on going.

The original trial dates have been vacated and the new trial dates have been re-scheduled to 4.10.2024, 21.10.2024, 22.10.2024 and 23.10.2024 (a total of four days) by way of Zoom, before YA Datuk Seri Mohd Firuz Bin Jaffril, the Learned Judge of Shah Alam High Court.

The Group has recorded an outstanding balance of RM1,711,311 in trade payables as disclosed in Note 20. The solicitor of UAPSSB is in view that UAPSSB has a good defence to Ajiya’s claim, and that UAPSSB’s counter claim against Ajiya is likely to succeed.

(ii) **An on-going arbitration proceeding by UAPSSB against SsangYong Engineering & Construction Co., Ltd. (“SsangYong”)**

SsangYong appointed UAPSSB as the sub-contractors for external façade works in respect of a project known as “Cadangan 1 Blok Pangsapuri Servis 49 Tingkat (80 Unit) Dan 1 Blok Pangsapuri Servis 43 Tingkat (117 Unit) Dengan 6 Tingkat Tempat Letak Kereta Serta 1 Basemen Tempat Letak Kereta Di Atas Lot 247, Seksyen 43, Jalan Ampang/Lorong Mayang Dalam Bandaraya Kuala Lumpur” (“the Project”) vide a letter of acceptance dated 2.3.2012 (“Letter of Acceptance”).

UAPSSB has duly completed all the works under the Letter of Acceptance as well as the other variation orders/directions given by SsangYong, and pursuant to the said Letter of Acceptance, UAPSSB has duly submitted the Final Claim (No. 53 - Final Claim/Account) dated 20.6.2016 (“Final Claim”), in which the sum of RM10,452,151 is due and payable to UAPSSB.

On or around October 2017 and after a meeting between parties’ representatives on 2.3.2017, the Claimant revised the Final Claim vide its letter dated 6.10.2017 to the Respondent (“Revised Final Claim”). Pursuant to the Revised Final Claim, the revised final value/claim of the Sub-Contract is RM77,458,402 and the total payment received is RM69,696,399. As such, the Outstanding Sum is reduced to RM7,762,003 (“Revised Outstanding Sum”).

35. Material Litigation (Cont'd)

- (ii) An on-going arbitration proceeding by UAPSSB against SsangYong Engineering & Construction Co., Ltd. (“SsangYong”) (Cont'd)

UAPSSB initiated the Arbitration herein against SsangYong to claim for, inter alia, the above outstanding sum of RM7,762,003. In their Defence and Counterclaim, SsangYong alleged that UAPSSB has failed to meet the stipulated completion date, complete the façade works, and rectify defects. SsangYong is therefore counterclaiming for, inter alia:

- (a) Liquidated damages of RM92,575,000;
- (b) Costs to complete and/or rectify defects in the façade works amounting to RM1,932,926 and RM799,835; and
- (c) Loss and/or damage suffered amounting to RM1,588,232.

Both parties have duly delivered their respective pleadings and exchanged their Lists of Documents. Both parties are currently reviewing and categorizing the documents submitted by each other.

As directed by the Arbitrator, both parties shall file the hard copies of the Agreed and Non-Agreed Bundles of Documents by 1.10.2024. A Case Management meeting was convened at 10 p.m. on 8.10.2024. It was agreed that a Case Management meeting will be convened virtually at 10.00 am on 12.11.2024 and that the tentative hearing dates would be from 22.9.2025 till 3.10.2025.

The solicitor of UAPSSB is in view that UAPSSB has a good chance to recover the aforesaid sum of RM7,762,003. Furthermore, the solicitor is also in view that UAPSSB has good defence against the counterclaim of SsangYong.

- (iii) Shah Alam High Court Suit No. BA-22C-24-07/2022 (“Suit 24”)
A discontinued litigation proceeding between Crest Builder Sdn. Bhd. (“Crest Builder”) and the Company & 2 Others

Pursuant to a Letter of Award dated 22.2.2019 (“LOA”), Crest Builder Sdn. Bhd. (“Crest Builder”), the Plaintiff, appointed UAPSSB, as the sub-contractor to carry out the design, supply and installation of aluminum etc for a factory building in Petaling, Selangor (“Subcontract Works”). UAPSSB is wholly owned by the Company, the 1st Defendant.

As the Subcontract Works were not completed by the original completion date, the Plaintiff and UAPSSB entered into a Supplementary Agreement (“Supplementary Agreement”) dated 21.6.2021 in order to address several issues arising from the delay. Pursuant to Clause 5.1 of the Supplementary Agreement, the Company executed and provided a Corporate Guarantee dated 21.6.2021 for UAPSSB, in favor of Crest Builder (“Corporate Guarantee”).

In Suit 24, Crest Builder claims a sum of RM1,062,597 from the Company (as a guarantor for UAPSSB) pursuant to the Corporate Guarantee. According to Crest Builder, UAPSSB has allegedly breached the LOA, the PAM Subcontract and the Supplementary Agreement (“Subcontract Agreement”).

35. Material Litigation (Cont'd)

- (iii) An Alam High Court Suit No. BA-22C-24-07/2022 (“Suit 24”) (Cont'd)
A discontinued litigation proceeding between Crest Builder Sdn. Bhd. (“Crest Builder”) and the Company & 2 Others (Cont'd)

UAPSSB has denied being in breach of the Subcontract Agreement. In essence, UAPSSB denies that the delay in the completion of the Subcontract Works was due to them and that Crest Builder is not entitled to impose any back-charges from UAPSSB under the Subcontract Agreement.

Suit 24 was withdrawn from the Shah Alam High Court with the filing of the Notice of Discontinuance dated 1.3.2024. The parties had agreed to refer the disputes to Arbitration pursuant to the Agreement to Add Parties and Consolidate Disputes dated 22.2.2024.

- (iv) An ongoing arbitration proceeding between Crest Builder and the Company & 2 Others

Pursuant to a Letter of Award dated 22.2.2019 (“LOA”), Crest Builder Sdn. Bhd. (“Crest Builder”), the Claimant, appointed UAPSSB, as the sub-contractor to carry out the design, supply and installation of aluminum etc for a factory building in Petaling, Selangor (“Subcontract Works”). UAPSSB is wholly owned by the Company, the 1st Respondent.

As the Subcontract Works were not completed by the original completion date, the Plaintiff and UAPSSB entered into a Supplementary Agreement (“Supplementary Agreement”) dated 21.6.2021 in order to address several issues arising from the delay. Pursuant to Clause 5.1 of the Supplementary Agreement, the Company executed and provided a Corporate Guarantee dated 21.6.2021 for UAPSSB, in favor of Crest Builder (“Corporate Guarantee”).

According to Crest Builder, UAPSSB has allegedly breached the LOA, the PAM Subcontract and the Supplementary Agreement (“Subcontract Agreement”). In this arbitration, Crest Builder claims for, among others:

- (a) A declaration that there was a delay in UAPSSB’s completion of the Subcontract Works and/or breach of the LOA.
- (b) A declaration that UAPSSB is liable for its neglect, failure and/or refusal to rectify the critical defective works by UAPSSB.
- (c) An order for the Company to pay a sum of RM1,062,597 pursuant to the Corporate Guarantee.
- (d) An order for UAPSSB forthwith pay Crest Builder the sum of RM11,707,754 as costs incurred by Crest Builder in completing the Subcontract Works and rectifying the critical defective works (calculated as of 31.12.2023), or such sum as assessed by the Tribunal.
- (e) An order for UAPSSB forthwith pay Crest Builder the sum of RM6,598 as the cost of stamp duties incurred by Crest Builder for stamping the Supplementary Agreement, Corporate Guarantee and Personal Guarantee (between Crest Builder and the 3rd & 4th Respondents).

35. Material Litigation (Cont'd)

- (iv) An ongoing arbitration proceeding between Crest Builder and the Company & 2 Others (Cont'd)

UAPSSB has denied being in breach of the Subcontract Agreement. In essence, UAPSSB denies that the delay in the completion of the Subcontract Works was due to them and that Crest Builder is not entitled to impose any back-charges from UAPSSB under the Subcontract Agreement.

Notice of Arbitration was issued by Crest Builder vide their letter dated 23.1.2024 and the preliminary meeting for the arbitration was held on 3.7.2024, before the Arbitrator. The Claimant shall submit the Points of Claims and the Arbitrator on or before 30.8.2024, followed by the Points of Defence and Counterclaim, to be submitted by the Respondents on or before 30.10.2024.

The solicitor is of the view that the Company does not have a strong case to oppose the payment under the Corporate Guarantee RM1,062,597. However, UAPSSB has an arguable case against other claims by Crest Builder. Hence, the Group and the Company have recorded the judgement sum of RM1,062,597 in other payables as disclosed in Note 21.

- (v) Kuala Lumpur High Court Suit No. WA-22C-42-06/2023 (“Suit”)

By a letter of appointment dated 5.1.2019 (“the LOA”), China Construction appointed UAPSSB as the sub-contractor to carry out and complete the design, supply, delivery and installation of aluminum and glazing, façade, fins, canopy, shower screen works in relation to the project known as Cadangan Pembangunan Bercampur 59 Tingkat Yang Mengandungi 1 Blok 616 Unit Pangsapuri 51 Tingkat Berserta 1 Tingkat Kemudahan, 1 Blok Menara Pejabat 24 Tingkat Berserta 1 Tingkat Kemudahan, 1 Blok Menara Pejabat 23 Tingkat, Sebuah Kelab Eksekutif Dua Tingkat, Di Atas 8 Tingkat Podium Yang Mangandungi 6 Tingkat Tempat Letak Kereta Podium & 2 Tingkat Ruang Perniagaan Di Atas 2 ½ Tingkat Tempat Letak Kereta Besmen Di Atas PT26885 (Plot 7B2), Mukim Batu Daerah Kuala Lumpur Wilayah Persekutuan (“the Project”). UAPSSB has duly completed all the works under the LOA as well as the other variation orders/directions given by China Construction. UAPSSB has issued a progress claim No. 39 dated 19.7.2022 to China Construction (“the Progress Claim”). Pursuant to the Progress Claim and after deducting the part payments from the Defendant, there is still a balance sum of RM3,325,537 (excluding the retention sum of RM242,227) that remains outstanding, due and payable to UAPSSB (“the Outstanding Sum”).

On 13.7.2023, UAPSSB withdrew the entire civil suit (with liberty to file afresh) and gave instructions to the solicitor to initiate an arbitration proceeding for the recovering of the outstanding sum in accordance with the PAM Contract.

The solicitor of UAPSSB is in view that UAPSSB has a good chance to recover the outstanding sum RM3,325,537. However, the Group has fully impaired outstanding sum RM3,325,537 in trade receivables as disclosed in Note 7.

36. Comparative Figures

(a) Prior year adjustments

The comparative figures of the Group have been restated due to the following:

(i) Correction on Trade Receivables and Contract Assets

In the financial year ended 30 June 2023, there was an overstatement of trade receivables by RM1,062,597 and contract assets by RM496,207, resulting in a cumulative retained earnings overstatement of RM1,558,804. These errors occurred due to understatement of impairment of trade receivables and contract assets due from third party. The impairment is related to customer with whom the Group is currently engaged in legal dispute.

(ii) Correction on Contract Assets and Revenue

In the financial year ended 30 June 2023, there was an overstatement of contract assets and overstatement of revenue by RM5,258,073, resulting in a cumulative retained earnings overstatement of RM5,258,073. These errors occurred due to overstatement of budgeted revenue.

PART A: ADDITIONAL INFORMATION REQUIRED UNDER PART B OF APPENDIX 6A OF THE LEAP MARKET LISTING REQUIREMENTS OF BURSA MALAYSIA SECURITIES BERHAD

1. Review of performance

As the Group currently operates wholly within Malaysia and only in the building facade industry, no segmental information is provided. The Group's operations are not significantly affected by any seasonal or cyclical factors.

i) Revenue

The Group recorded a revenue of RM14.8 million for the current financial year ended ("FYE") 30 June 2024, as compared to RM35.7 million in the previous financial period, representing a decrease of RM20.9 million or 58.5% mainly due to the completion of all previously undertaken projects.

ii) Gross profit ("**GP**")

The Group recorded a GP of approximately RM8.7 million for the FYE 30 June 2024 as compared to RM5.6 million in the previous financial period, representing an increase of RM3.1 million or 55.4%. The increase in GP was primarily due to the positive contributions from a newly acquired project, along with various cost control measures implemented by the Group, such as a stricter input cost forecasting and controlling method, resulting in a comparatively lower cost of sales.

iii) Loss before taxation ("**LBT**") / Profit before taxation ("**PBT**")

The Group recorded a PBT of approximately RM4.5 million for the FYE 30 June 2024 as compared to the LBT of RM12.4 million in the previous financial period, representing an increase of PBT of RM16.9 million or 136.3%. The increase in Profit Before Tax (PBT) was primarily driven by positive contributions from a newly acquired project, as well as the Group's strategic debt recovery efforts and internal restructuring. These implementations led to a significantly lower net loss on impairment and administrative expenses.

2. Prospects

The Group has a series of future plans and strategies in place to further expand the Group's business which are focused in the following areas:

- i) expansion of presence in local building facade industry in Malaysia;
- ii) expansion of factory facilities for higher fabrication capacity; and
- iii) expansion into upstream and downstream business.

A 80% owned subsidiary of the Group had on 4 February 2022 entered into a Memorandum of Collaboration with Sun Solutino Pte Ltd and on 3 June 2022 entered into a Memorandum of Collaboration with Astrom Training Solutions Inc. in relation to the development of certain parts of MVV 2.0. On 23 September 2022, the subsidiary also entered into a conditional sale and purchase agreement with NS Corporation for the proposed acquisition of land for the development of MVV 2.0, which was then terminated on 31 October 2022. For information purposes, there is no material update regarding the development. The Group will continue to liaise with NS Corporation on the land for the Proposed Joint Venture.

A wholly-owned subsidiary of the Group had on 2 April 2024 being awarded with a RM17.05 million construction project which is to be completed in the next financial period. More substantial earnings can be anticipated in the next financial period as the project progresses.

In addition to the above, the Company is also actively tendering and negotiating for a number of construction and development projects, with 2 negotiations anticipated to be finalized in the next financial period.

PART B: OTHER INFORMATION

1. Status of corporate proposals

Save as disclosed below, there were no other corporate proposals announced but pending completion as at the date of this report.

On 14 January 2022, the Group had announced a proposal of undertaking a placement of up to 73,140,000 Placement Shares, representing 10% of the Company's total number of issued Shares. For information purposes, none of the Placement Shares has been placed out as to date. The Company will make the necessary announcement on any new fundraising exercise as and when required.

On 2 April 2024, the Group had announced that a wholly-owned subsidiary of the group had on 2 April 2024 being awarded with a RM17.05 million construction contract as nominated sub-contractor. Barring any unforeseen circumstances, the contract is expected to contribute positively towards the future earnings of the Group for the duration of the contract and will not have any effect on the share capital and substantial shareholders' shareholdings of the Group. The Group intends to fund the contract via internally generated funds and external borrowings. None of the Directors or substantial shareholders of the Group or persons connected to them has any interest, direct or indirect, in the contract.

2. Dividends

The Board does not recommend any interim dividend for the current financial period ended 30 June 2024.

Notes:

- (1) Please refer to the Administrative Guide for the procedures to register and participate in the virtual meeting. Shareholders will not be allowed to attend the 6th AGM in person at the broadcast venue on the day of the meeting.
- (2) A member of the Company entitled to attend and vote at this meeting may appoint proxy(ies) (or in case of a corporation, a duly authorised representative) to attend and vote on his stead. A proxy may but need not be a member of the Company.
- (3) The instrument appointing a proxy shall be in writing under the hand of the appointor or of his attorney duly authorised in writing or, if the appointor is a corporation, the proxy form shall be executed either under its common seal or under the hand of an officer or attorney duly authorised.
- (4) Where a member appoints more than one (1) proxy, he shall specify the proportion of his shareholdings to be represented by each proxy. The instrument appointing a proxy shall be deemed to confer authority to demand or join in demanding a poll. A proxy appointed to attend and vote at a meeting of the Company shall have the same rights as the member to speak at the meeting.
- (5) Where a member of the Company is an exempt authorised nominee as defined under the Securities Industry (Central Depositories) Act, 1991 which holds ordinary shares in the Company for multiple beneficial owners in one securities account ("Omnibus Account"), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each Omnibus Account it holds.
- (6) The instrument appointing a proxy must be deposited at the Company's Share Registrar's Office, B-21-1, Level 21, Tower B, Northpoint Mid Valley City, No. 1, Medan Syed Putra Utara, 59200 Kuala Lumpur or email to admin@aldpro.com.my not less than forty-eight (48) hours before the time fixed for holding the meeting or any adjournment thereof.
- (7) Only the member whose names appear on the Record of Depositors as at 5 December 2024 shall be entitled to attend and vote at this meeting or appoint proxy(ies) to attend and vote on their behalf.

Explanatory Notes:

1. Audited Financial Statements for the Financial Year Ended 30 June 2024

This Agenda item is meant for discussion only as the provision of Section 340(1)(a) of the Companies Act 2016 does not require a formal approval of the shareholders for the audited financial statements. As such, this item is not put forward for voting.

2. Ordinary Resolution 4: Authority to Allot Shares Pursuant to Sections 75 and 76 of the Companies Act 2016

The Ordinary Resolution 4, if passed, is proposed for the purpose of granting the Company a renewed general mandate ("**General Mandate**") under Sections 75 and 76 of the Companies Act, 2016 and subject to Rule 5.04 of the LEAP Market Listing Requirements of Bursa Securities.

The Ordinary Resolution 4, if passed, will give the Directors of the Company authority to issue ordinary shares in the Company at any time in their absolute discretion without convening a general meeting. The authorisation, unless revoked or varied by the Company at a general meeting, will expire at the conclusion of the next AGM of the Company, or during the expiration of period within which the next AGM is required by law to be held, whichever is earlier.

The General Mandate, if granted, will provide flexibility to the Company for any possible fund-raising activities, including but not limited to, further placing of shares, for the purpose of funding investment project(s), working capital and/or acquisitions.

Pursuant to Section 85 of the Act and Clause 61 of the Company's Constitution, shareholders have pre-emptive rights to be offered any new shares in the Company which rank equally to the existing issued shares in the Company. This Ordinary Resolution 4, if passed, will exclude the shareholders' pre-emptive right to be offered new shares to be issued by the Company.

As at the date of this Notice, the Company has not issued any ordinary shares pursuant to the general mandate that was granted by the shareholders at the 5th AGM of the Company held on 13 December 2023 and hence, no proceeds were raised therefrom.
